

Elevate *YOUR* Voice in Research!

In August of last year, a group of local Chicago-area patient advocates formed a team to find a way to assure the patient's voice in research.

We're thrilled to share that PCORI awarded us funding to ensure that patients and the public have the evidence-based information they need to make better-informed healthcare decisions. When you complete our survey, you help us promote research that is guided by patients, caregivers, and the healthcare community.

Our project is *"Elevating the Patient Voice in Research"* and we need you!

The survey we developed will help us better understand the social issues and health conditions that are impacting *your* community.

The survey only takes about 20 minutes to complete and we're excited to announce the first 200 people who complete the survey will receive a **\$10.00 gift card!**
